

GOVERNMENT WILL CONSIDER ACTION ON LABOR LEADERS

Will Take up Matter of Incendiary Talks in Due Time

(By The Associated Press) WASHINGTON, Sept. 6.—For an announcement by Attorney General Daugherty that the government would consider in due time the matter of incendiary speeches made by labor leaders who have made inflammatory speeches in connection with the industrial situation and persistent reports that secret conferences are in progress looking toward some sort of separatist settlement with individual roads stood out in today's developments of the strike of the railway shop rats.

Incidentally Mr. Daugherty had preparation of the government's case has been somewhat hampered by the difficulty of procuring servers were experiencing a locating "leading" officials of the shop crafts organizations.

W. H. Johnston, president of the machinist and B. M. Jewell, head of the seven organizations in strike have recently dropped out of public view although labor spokesmen have invariably denied the leaders were avoiding the service of copies of the restraining order issued at Chicago last Friday.

Mr. Daugherty emphasized his belief that the rank and file of labor organizations were content to leave the issue to the orderly processes of law but said the new leaders "who have shown a contempt for the courts need not be disappointed that they are denied the full freedom of free speech."

Instructions have been sent to the United States attorney at Chicago and the attorney general to notify counsel for the unions that officials of the shopmen's organizations with their complete records would be required before the court when the case is again called.

Both in government and labor circles today complete ignorance was asserted of any actual information on the question.

It was a matter of common knowledge that several railroads still held the views in favor of separate settlements which their representatives recently expressed at New York.

The government's temporary restraining order came in for its first public attack in the senate today when Senator Robinson, Democrat, or Arkansas, assailed the writ on the ground that it constituted a "plain violation of the constitution."

Senator Watson, Republican, of Indiana, defended the government's course asserting that it was the only action possible in the emergency.

The suggestion that settlement negotiations might have been instituted thru third parties was seen in the statement of machinists' officials that their organization had been invited to any meeting.

START BATTLE FOR GOLD COAST LAND

(By The Associated Press) CHICAGO, Sept. 6.—From out of the murky past of the city's history, a legal battle was started today to obtain possession of 160 acres of "gold coast" land valued at many millions of dollars with the filing of a claim to the ground by Herman Krueger and Elizabeth Schmidt.

Seven hundred and twenty defendants, including some of Chicago's wealthiest citizens were named in the document. The ground in question is bounded by the Chicago river, the Lake Michigan shore, the Chicago avenue and the "original line" of Kennedy's addition to Chicago.

Claim to the tract dates back before "Cap'n" Streeters' famous historic landing—back to that date when the property mentioned was an island, just off the "sands" north of the mouth of the Chicago river. During those days it is claimed one squatter, Johnson settled down on the land and acquired property rights which he sold to the ancestors of the two who started the recovery proceedings today.

GRAND JURY WILL INVESTIGATE THE TUTHILL SHOOTING

Assistant State's Attorney Announced Intention Last Night

(By The Associated Press) BELLEVILLE, Ill., Sept. 6.—The circumstances surrounding the killing Monday night of Mrs. Ada Tuthill at Marissa, twenty miles southeast of here, will be investigated by the grand jury which convenes here next Monday, Assistant State's Attorney Lindauer announced tonight.

Warrants charging murder issued today against City Marshal William Crossby, Night Marshal James Robinson and Howard Lang, a miner, all of Marissa, one of whom fired the fatal shot.

Warrants for manslaughter had been previously issued against the three men who have been held in jail here because of the bitter feeling in Marissa, but today's warrants were substituted in order to prevent the release of the three prisoners on bond.

Mrs. Tuthill, accompanied by her husband, Bert Cox and his wife, were returning from Tilden, Ill., when she was shot to death. It developed at the inquest that the two officers and Lang, who had been deputized by the city marshal, were waiting for an automobile that had been stolen in Pinckneyville, Ill.

In testifying at the inquest Cox who was driving the machine, declared one of the three jumped out of the road swinging a flashlight and a revolver, but heard no order to halt. Without warning, he said, a number of shots were fired and Mrs. Tuthill was struck in the head.

Crosby, the only one of the three men to make a statement, denied he fired the fatal shot.

UNCOVER WHISKEY RUNNING SYNDICATE

(By The Associated Press) CHICAGO, Sept. 6.—Memories of the underground railways of slave days were revived today by the revelation of the existence of a whiskey running syndicate between the Bermuda Islands and Chicago employing West Indian fishermen at one end and Pullman porters at the other.

After listening to the stories told by nine porters arrested recently, Charles Cline, district attorney started twenty federal agents for New Orleans to arrest seven "higher ups" there and detailed men to find three others in Chicago.

So extensive is the organization according to the porters that it owns a fleet of fishing smacks to bring whiskey in New Orleans from Bermuda.

More than 300 cases a week have been brought into Chicago in sleeping cars the porters said.

UNABLE TO CONFIRM SCOTT STATEMENT

(By The Associated Press) BALTIMORE, Md., Sept. 6.—Unavailing efforts were made to confirm the statement of John Scott, secretary of the railway employees department of the American Federation of Labor at Chicago today that seven representatives of striking shopmen were in Baltimore for a conference with railroad executives on a proposition to end the strike.

Inquiries of all sources which might reasonably be expected to be informed elicited the uniform reply—nothing known either of the presence of the strike leaders or of their whereabouts.

After P. Broening, president of the Baltimore Federation of Labor declared that he knew nothing of any strikers being here or of any conference, but he did know that B. M. Jewell, leader of the striking shopmen, was not in Baltimore as he had talked over the telephone this morning with Mr. Jewell at Buffalo, Mr. Jewell spent two days here of late weeks without his presence becoming publicly known.

UNDERTAKERS IN CONFLICT AS TO NUMBER OF DEAD

Say There Were Only 19 as Against 22 in Coroner's Records

(By The Associated Press) MARION, Ill., Sept. 6.—Conflicting testimony before the grand jury investigating the Hermin mine war of June 22, last, in which 22 men were said to have been killed, was made today by the undertakers who buried some of the dead and Coroner William McCown, the coroner's records which he turned over to the grand jury showed that 20 non-union men were killed, while the records of the undertakers who appeared before the grand jury today showed only 19. The descriptions of the dead men kept by the undertakers and the coroner do not tally.

Coroner McCown has been recalled to appear again Thursday. The questioning of witnesses continued throughout the day and just before adjournment the attorneys were requested to withdraw and the grand jury held an executive session but no indictment was returned.

Attorney S. A. C. Lewis of Harrisburg has been engaged to act as additional counsel for the United Mine Workers, and in a paid advertisement to his clients published in the Harrisburg Register he calls this investigation and trial an effort by organized wealth. His statement said in part as follows:

"I have been employed to assist in defending all union men who have been and will be indicted by the grand jury now investigating the recent Hermin killings. With the purpose of poisoning the minds of the public against all persons whom this grand jury may indict and with the hope of creating a public sentiment which will prevent these men from receiving a fair trial, the organized wealth of the nation has been conducting a very extensive and expensive campaign. It is apparent they have raised and are spending fabulous sums of money not for the purpose of bringing the guilty to justice but with the intention of seeking victims in the hope that by doing so, they can in some measure discredit organized labor."

"Their campaign is the most un-American agitation ever undertaken in this country. Much worse, much more appalling, much more dangerous to American institutions than the most atrocious actions with which they falsely accuse the miners. They have created a condition requiring that we lawyers who have chosen to defend must devote to our work all of our time and efforts. This is going to be one of the most notable trials in the history of our country. We intend to spare no efforts to seek that justice is done."

Enough witnesses, Attorney General Brundage said, are available to keep the grand jury in session throughout all of this and next week.

FIRE RAGES IN TANK STEAMER

(By The Associated Press) PENSACOLA, Fla., Sept. 6.—Fire which started in a fuel oil tank of the American Steamship Coltraps, last night burned fiercely all day and tonight, tugs are moored at the side of the steamer still pouring volumes of water into the ship.

The Coltraps this afternoon was seen to list dangerously and it was feared the vessel would settle in the 15 feet of water.

There were perhaps 300 barrels of oil in her fuel tank and this is where the fire has been raging. It is believed that the lumber cargo is damaged heavily.

Captain S. H. Olsen lost his life fighting the fire. He fell into the hold of the vessel while making an examination of the fire in an endeavor to ascertain the extent of the fire and broke one leg in three places, broke an arm, dislocated a shoulder and injured his skull. A sister of the captain resides in Bradley, Iowa, but telegrams have failed to reach her.

Senator LaFollette Gives Out Statement

(By The Associated Press) MADISON, Wis., Sept. 6.—With returns from the primary election indicating his re-nomination for the United States senatorship, Senator LaFollette tonight made the following statement:

"The people of Wisconsin have won the greatest primary victory in the history of this progressive state."

"This great triumph for the plain people of Wisconsin was won upon a declaration of issues presented by the progressive Republican candidates among which were: The repeal of the Esch-Cummins law; the enactment of a law taxing excess profits; immediate increase of federal inheritance tax rates upon real estate to be applied upon war debt; defeat of the proposed ship subsidy bill and all measure for like gratuities to special interests; unalterable opposition to any tariff rate in excess of the difference in the cost at home; maintain and strengthen the existing Wisconsin primary election law; publicity of all income tax returns, both state and federal to prevent the cheating and tax-dodging whereby great corporations have unlawfully withheld vast sums of money from the public treasuries; just compensation for all ex-service men; condemnation of present excessive expenditures for military and naval purposes; unalterable opposition to universal military training and pledging support for constitutional amendment for a referendum vote to the people on every declaration of war except in case of actual or imminent danger of invasion or for amendment to the constitution to meet the recent decision of the supreme court nullifying the child labor law; abolition of the use of the injunction in disputes between employer and employees and declaring strongly for the right of farmers and industrial workers to organize and bargain collectively and conduct such cooperative enterprises as they require for their protection."

"These are some of the vital issues upon which the voters passed judgment in the primary yesterday."

"I mention them in the hope that this statement may reach the people in other states where primary campaigns are in progress and encourage them to fight on for the real democracy."

"The result of the primary election in Wisconsin is more astounding because of the character of the opposition."

"To strip the mask of subterfuge from the so-called sane progressives and reveal the real character of the opposition was more difficult because of the immense expenditure of money used to flood the state with a mass of misleading campaign literature by the opposition. Added to this the great bulk of the press of the state, controlled by the special interests, failed to give the people the truth. x x x x x"

"We expended a small amount of money largely contributed in small amounts by farmers and wage earners."

"Wisconsin is suffering less than most states from the general depression. The result is not so much the protest of disaffection and despair as the inspiring and determined declaration of a great state to bring government back to the people and make it serve the common interests."

RESCUING CREWS MAKE PROGRESS IN THEIR WORK

Hope Still Held Out of Survival of Entombed Miners

(By The Associated Press) JACKSON, Cal., Sept. 6.—The two rescuing crews digging their way thru two abandoned tunnels in the Kennedy mine toward the Argonaut mine and its 46 imprisoned occupants made progress today and hope still exists for the survival of the entombed miners, although the time when they will be rescued is a matter of uncertainty.

An advance of five feet was made this morning in the 3,600 foot level of the adjoining Kennedy mine and three sets of timbers were put in.

In the 3,600 foot level the crew drilled ahead thru mud and debris has 175 feet yet to go. The working space in the drifts is just large enough for two men to work side by side while their comrades rush the dislodged rock and debris out of their way.

When the end of the 353 foot drift toward which the 3,600 foot level crew is working has been reached the Argonaut mine itself can be reached in 36 hours, it is believed.

GLIDER TAKES TO AIR WHEN TOWED BY SPEED BOAT

Glenn H. Curtiss, Aviation Expert, Makes the Experiment

(By The Associated Press) PORT WASHINGTON, N. Y., Sept. 6.—Glenn H. Curtiss, aviation expert, today soared over Manhasset Bay in a sail plane which on two occasions took the air when towed by a speed boat, stayed aloft 49 seconds the second time with the tow line out and then glider gracefully down to the water again. This was said to have been the first time a marine glider ever has risen from the water.

After the experiment Mr. Curtiss expressed himself well pleased with the result of the test made under adverse conditions with a light wind and then speculated on the possibility of "air trains—a number of sail planes towed thru the air by a motor seaplane."

The theory that railers could be attached to a flying boat was advanced by aviation experts who watched the flights, after E. L. Gilmore, chief engineer of the Curtiss corporation discovered that the sail plane tugged very lightly at the tow line. With the sail plane 30 feet in the air, Mr. Gilmore found he could hold the line with one hand.

Later when the theory was laid before Mr. Curtiss he said he believed it would be practical to tow a sail plane behind a flying boat at considerable height without danger. Representatives of the aeronautical chamber of commerce, announced that such an experiment probably would be made soon.

The sail plane used in today's tests, was except for its blunt nose, almost a complete copy on reduced scale of the NC-1, the first aircraft to fly the Atlantic. The glider has a wing spread of 28 feet, is 24 feet long and weighs 140 pounds. Mr. Curtiss weighs 155 pounds bringing the total to 25.

The hull is made of very light metal. The cock pit is so small that Mr. Curtiss could hardly get into it. The wings are 54 inches wide and the distance between the upper and lower planes is 60 inches. The lifting area is 230 square feet. Today's experiments started with three unsuccessful attempts to get the sail plane into the air. Each time the fishing line used as a tow rope snapped. Failure to rise was attributed to the almost dead calm that prevailed. Finally a slight breeze arose. After it had been towed about a quarter of a mile at 35 miles an hour the glider rose 12 feet from the water. The tow line was cut.

Later another flight of equal length was made. The glider about 30 feet on an even keel and, Mr. Curtiss said, under perfect control.

"This is the first step in sea soaring," said Mr. Curtiss. "The problem here is different than that met by the German gliders which recently remained aloft so long. Theirs was the problem of maintaining balance on vertical air currents."

"Here we have no such currents, for the currents move parallel with the water. We must pattern after the Albatross, which takes off from a wave and soars immediately. To keep soaring we must have knowledge of the variations of the air currents over the water."

(By The Associated Press) ATLANTIC CITY, N. J., Sept. 6.—Declaring that the embracing injunction obtained by Attorney General Daugherty against the striking shop crafts has "aroused an enormous wave of public sentiment in favor of the rail workers," Samuel Gompers, president of the American Federation of Labor, and members of his executive council today prepared to enter the courts with a demand that the injunction be vacated.

The labor leaders frankly stated that they were drawing up plans for legally blocking the injunction to be ratified when the full executive council convenes Saturday.

LAFOLLETTE GETS BIGGEST MAJORITY IN STATE'S HISTORY

Now Has Lead Over Opponent of 178,333 Votes

(By The Associated Press) MILWAUKEE, Sept. 6.—Senator Robert M. LaFollette has been swept into the Republican nomination for senator at the November election in this state by the greatest majority that any candidate has ever polled at a primary in Wisconsin.

Returns received from more than four fifths of the state early tonight show him to be leading by 178,333 over W. A. Ganfield of Waukesha, president of Carroll College, his only opponent. The vote from 2,057 out of 2,523 precincts in the state was:

LaFollette 294,857
Ganfield 116,524

Senator LaFollette carried with him what was known as the "entire LaFollette state" from United States senator down thru the attorney general. For a time it looked as tho the present State Treasurer Henry Johnson who was opposed by a LaFollette candidate might slip into a re-nomination for this office but later Adolph Letvan gained strength and he was leading by about 10,000 over three fifths of the state heard from.

Governor Blaine who headed the LaFollette state ticket likewise rolled up a remarkable vote and 2,051 precincts out of the 2,524 reporting tonight he had a plurality over his nearest opponent Attorney General William J. Morgan of 133,000.

LaFollette adherents are not the only ones who are elated in Wisconsin tonight as the wet forces point with pride to the fact that they supported the entire LaFollette ticket and that they have gained two wet congressmen. These two men are Peavey and Schneider in the ninth district.

Senator LaFollette's large total came not only from those who favored the wet cause, but from a host of those who heard the senator attack the Esch-Cummins bill, the Fordney-McCumber tariff measure, the proposed ship subsidy bill, Newberryism and his advocacy of retention of the primary election system.

Mrs. Lila H. Matteson, Clintonville, is the first woman in Wisconsin to capture the Republican nomination for the assembly. She defeated George W. Maggers and E. F. Timm. Her nomination practically insures her election in which case she would be the first woman to win a seat in the Wisconsin legislature.

SHOPMEN LEADERS SEND OUT CALL FOR AN EARLY MEETING

Thought Meeting Will be Held in Chicago Early in Week

(By The Associated Press) CHICAGO, Sept. 6.—A call for an immediate meeting of the policy committee of 90 in Chicago, probably on Monday was sent out tonight by John Scott, secretary of the striking railway shop crafts unions.

The telegraphic appeal was in code and was addressed to the regional general chairmen of the organization in all parts of the country. It was expected that it could be several days before they could arrive in Chicago and or that reason no general sessions were expected before the first of next week.

The meeting as called, it was intimated to consider plans for a settlement of the strike on separate roads representing about one third of the country's mileage. It followed reports of conferences between B. M. Jewell, head of the strikers and rail executives in the east.

The Chicago & Northwestern Railway, one of those mentioned in rumors of separate strike settlements today issued the following notice to its "striking" employees:

"Every possible effort to settle the strike of the federated shop crafts thru their national officers having failed, this company now invites the men who went out on this road to return to work with the assurance that they will be accorded fair and just treatment."

In discussing the meeting of the union executive committee, Mr. Scott said that it was hoped that the sessions would result in settlements with at least fifty Class I roads. He said the expense entailed in assembling the strike leaders would not have made it worth while to issue a call unless there were a possibility of a settlement being reached.

The union leaders compared the situation with the action taken recently at Cleveland which ended the bituminous coal strike, John L. Lewis, president of the miners, presenting certain terms to any operators who cared to sign piously that the strike was broken and that they would make no overtures looking toward any future conferences with strike leaders.

Not a western executive would talk for publication, but many indicated privately that the strike was broken and that they would make no overtures looking toward any future conferences with strike leaders.

Gave Dance for Style Show Participants

The dinner dance given at the Peacock Inn last evening by the committee who had charge of the recent style show at the late Morgan county fair was a marked success in every way and proved one of the social events of the season. The active committee in charge of the affair was composed of Miss Hazel Strawn, chairman; Miss Dorothy Walls, Miss Mary Coggriff and Miss Grace Tilton. Everybody who took any part in the style show was a self invited guest and in addition to these many friends were included.

The decorations for the occasion were asters and asparagus ferns. During the dinner hour short talks were made by Fletcher Hopper, Herman Shanken, C. Justus Wright, Bert Andre, Harry Cain and Mrs. Tandy. A pleasing feature of the evening was the singing of Mr. M. C. Davis and the

piano playing by Mrs. Vivian Goodrick. Mr. Louis L. Horen acted as toastmaster of the evening.

The following were present: Misses Hines, Donovan, Martin, Tilton, Arnold, Dorothy and Blanch Wall, Price, Hayes, Mel-lou, Wright, Cosgriff, Wallan, Hildreth, Mason, Goodrick, Strawn, Pawcett, Ray, and Mesdames Tandy, Grassley, Howard, Haskell, and Mr. and Mrs. Lucas, Mr. and Mrs. Wright, Mr. and Mrs. Andre, Mr. and Mrs. Hopper, Mr. and Mrs. Shanken, Mr. and Mrs. Begal, Mr. and Mrs. Hodgson, Mr. and Mrs. Cully, and Messrs. At the recent affair Mrs. Smith wore her wedding gown and came down the stairs carrying a bridal bouquet. This she threw to the assembled guests and it was caught by Miss Gertrude Manchester.

Miss Frances Alkire gave a number of original readings and various games and contests were enjoyed. An elaborate supper was served in the dining room, where decorations of pink and white were used with charming effect.

Before Baby Comes

THERE are thousands of expectant mothers who undergo much needless suffering for months before, as well as at the moment when delivery occurs. These months of suffering, with nerves and vital organs weakened, leave their effect upon the child. An eminent physician found the way to stop much of this unnecessary suffering—the same easy way which thousands of mothers have used for three generations.

Mrs. Walter S. Hadley, Bridgeport, Ind., says: "Before my little boy came I was so paralyzed in my hips and limbs I could hardly walk, and some days after a little extra exertion I couldn't walk a step. I felt it coming on this time; in fact, I could hardly get up when I sat down, but now, after using one bottle of Mother's Friend, I am so much better, I feel that I almost owe my life to Mother's Friend."

"Mother's Friend" is applied externally to the abdomen, back and hips. It penetrates remarkably, permitting the easier relaxation and distension of muscles, nerves, ligaments and joints, and their constant easier readjustment during expectancy and at child-birth. Have no more fear or dread, mother! Start using "Mother's Friend" now—the sooner the better.

Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse, and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor, because I wasn't very sick—only about ten or fifteen minutes."

"Mother's Friend" contains no narcotics or harmful drugs. It is safe. For three generations "Mother's Friend" has relieved expectant mothers of much needless suffering. Mother! you must avoid mere guesses and useless substitutes. Begin using "Mother's Friend" today. It is sold at drug stores—everywhere.

REV. W. S. PHILLIPS LEADS SONG SERVICE

Is in Charge at Opening Session of Illinois Methodist Conference in Decatur—Rev. C. D. Robertson Gives Address at Memorial Service.

DECATUR, Ill., Sept. 6.—(Special to Journal.)—The usual opening session of an annual conference was observed this morning. Song service, led by Rev. W. S. Phillips of Carlinville, followed by the administration of the Sacrament of the Lord's Supper, by Bishop Nicholson, assisted by the pastor of the local Grace church, Rev. A. M. Wells, and the district superintendent.

After roll call the Memorial Services were held, and an address of rare beauty and taste was delivered by Rev. C. D. Robertson of Centenary church, Jacksonville. The unusual item of the first session was a address of welcome given by a representative of the Decatur Ministerial Association, Rev. R. E. Henry, pastor of First Christian church. It was an appropriate fraternal address, full of witty references to past and present association of aggressive denominational emulations, not to save rivalries.

These more or less perfunctory sessions occupied the earlier part of the forenoon, followed by election of officers. Rev. F. B. Maden of Clinton was re-elected secretary for the fifteenth time, showing his popularity and a deserved acknowledgment of his efficiency. Then the district superintendents began their reports, surveys and reviews, which filled up most of the morning session.

Educational Program

The board of education of the conference passed upon the recommendations of the bi-conference sub-committee, in reference to a joint movement in behalf of the schools and colleges together with the program in the interest of the Conference Claimants Fund of each of the two conferences. The matter goes before the conference committee on education, made up of the ministers on the board of education and by them will be presented to the conference on Friday.

In brief it recommends the following suggestions as to amounts to be sought to begin in April of next year and culminating at midnight June 30th:

For Illinois Wesleyan University	\$ 333,333
For Illinois Woman's College	250,000
For Wesley Foundation at Urbana	250,000
For Conference Claimants (Ill. Conf.)	166,667
For Conference Claimants (Central Ill. Conf.)	83,333
For Chaddock Boy's School (Quincy)	83,333
For Balance for Expense and Mis.	83,333

Total \$1,250,000
The closing of the college for the year at Abingdon, was the reason for no special amount being suggested for that school. The Illinois central conference, therefore, is principally concerned with its shares of the Illinois Wesleyan, budget and the conference claimant fund for that conference. The resolution hinted to the chief officers of these schools and friends, "get busy." Immediately there was called a meeting at the Hotel Orlando all these heads of institutions, and in an orderly way the plans for the campaign will be outlined. The sum total is a sweeping reduction of the plan discussed at Jacksonville last year, but it is in harmony with the conditions of the times, even if below the needs of the institutions.

The atmosphere of Decatur, in its moral and physical aspects, is all that could be desired. More would be a surplus. The Presbyterian ministers and laymen of the Illinois Synod, also in session, and with the local ministry, when introduced to the conference, included Dr. Penhalligon, whose reception was quite cordial.

Bishop Nicholson announced that for several weeks the cabinet had under consideration a serious problem of appointments, on account of the return of those for pastoral service who were granted a year of absence for study, travel and rest. These are Revs. Flanagan, McIntosh, Harry and McDaniel. Also the indicated reduction in salary of several others that will cause close study in the matter of readjustments. Only one pastor, Rev. A. L. Wicks of Potomac, asks for a year of rest, from pastoral service. The serious illness of his wife necessitates a change of climate.

Increase of Members
Champaign-Urbana district as reported by A. R. Byrns showed a net increase of 800 members. Bloomington district, C. M. Duncan, superintendent, reported a net increase of 1000 members. These were the only districts reporting the first morning.

Minute Fund
An agreeable surprise was created by the announcement that 5,000 copies of the Illinois conference minutes last, printed ahead of time, and with neatness and despatch, yet left \$109 of profit with the committee of publication. Said committee was promptly voted a resolution of thanks and asked to continue for another year. A special Centennial edition was discussed for 1924, and the hope was expressed that it might be replete with historical data, and illustrated with group or individual pictures of the conference membership.

**Burning Feet, Corns and
Callouses Halt Mrs. Doyer**
On long hike from Boston to Los Angeles
Reaches New York Where Foot Troubles Threaten to End
Strenuous Journey. Tells How She Outwitted Pains
From Sore, Burning Feet, Corns and Bunions with
GYPSY FOOT RELIEF
A Wonderful Secret from the Desert

AFTER shaking hands with Gov-
ernor Cox, of Massachusetts
and Mayor Curley of Boston, Mrs.
Bella Doyer and her fifteen-year
old son started their long hike
from Boston to Los Angeles, Cal-
ifornia, with nothing but jack-
knives in their pockets and walk-
ing sticks for protection on their
strenuous journey. Dressed in
khaki uniforms they reached New
York City in good time, where
Mrs. Doyer's burning feet, corns
and the appearance of a red-sore
bunion threatened to halt her in-
tended record-making expedition.
But hearing of the wonders per-
formed by Gypsy Foot Relief, Mrs.
Doyer obtained a box and anxiously
put it to the test, for here was
an aggravated condition of foot
troubles calling for immediate re-
lief, and she must make good her
slogan of "reach Los Angeles by
foot or die!" How Mrs. Doyer suc-
ceeded is best told in her own
words in an interview, just before
leaving New York to continue her
3,300 mile foot-trip. She
said:

"When we reached New York
City, in good time, my feet were
burning, sore and aching, callouses
had formed and two corns and a
sore bunion made their appear-
ance. I thought I would have to
give up my 'reach California on
foot or die' program. Hearing

about the wonders of Gypsy Foot
Relief, I obtained a box and ap-
plied it that afternoon, and that
night, and the next morning, and
to my surprise, my feet felt as if
they had new life; the burning
and aches had ceased, the soreness
had gone and the pains from corns
and bunions had disappeared as if
by magic. I started on my long
hike again and now that I have
some Gypsy Foot Relief, I am sure
I will reach Los Angeles without
any more foot troubles or misery."

NOTE:—Gypsy Foot Relief,
mentioned by Mrs. Doyer, is a se-
cret from the desert. Applied in
a minute, relief comes a few min-
utes later! The awful pains from
burning, calloused feet and bun-
ions seem to disappear as if by
magic! No bother to apply—no
plasters—no powders—no soaking
feet in medicated baths—no fuss!
Simply apply it as directed, then
put on your shoes and walk, run
or dance as long as you wish, or
work and stay on your feet as
long as you like! So remarkable
are the reports of Gypsy Foot Re-
lief from different parts of the
country, that the makers guaran-
teed successful results in every
case—or you get back the little it
costs! It is sold in this city by
all good druggists, including J.
P. Shreve Drug Co., Armstrong
Drug Co., and Coover Drug
Store. (adv.)

**McADOO STARTS
ON RAFTING TRIP**
(By The Associated Press)
RIGBY, Iowa, Sept. 6.—Wil-
liam G. McAdoo, former secretary
of the treasury, today started a
100 mile rafting trip down the
Snake river with a number of
prominent Idaho and California
residents. The journey aboard
the log raft is expected to take
a few days and the party will hunt
and fish.
On his arrival in Rigby yester-
day Mr. McAdoo addressed a
large crowd and declared that a
great body of independent, intelli-
gent and far-seeing voters should
grow up between the two great
political parties, swinging from
one to the other when each es-
says the best solution to political
and economic problems. He
urged this as the best method of
securing political action and the
best government.
The Esch-Cummins law, as a
purely domestic measure, is do-
ing more to throttle the prosper-
ity of the country than any other
one thing, according to Mr.
McAdoo.

**DENY REPORTS OF
SECRET MEETINGS**
NEW YORK, Sept. 6.—Denials
by railroad executives that secret
meetings were scheduled with a
view to ending the long strike of
railroad shopmen, and a request
by eastern labor leaders that At-
torney General Daugherty and
Federal Judge Wilkerson of Chi-
cago be impeached because of the
recent government injunction fea-
tured the rail situation here to-
day. The executives emphati-
cally denied stories from the west
that secret meetings had been ar-
ranged in Baltimore. They said
that if any were held only indi-
vidual roads would be represent-
ed. The result of the resolution
adopted by the executive commit-
tee of the central trades and labor
council last night, calling upon
every trade unionist in the greater
city to assess himself one day's
pay will enable the shop crafts-
men to remain on strike several
months longer than expected, ac-
cording to David Williams, secre-
tary of the central strike commit-
tee for the Metropolitan district.

ILLINOIS WOMAN'S COLLEGE
**SUGGESTS HOW PARENTS SHOULD SELECT a PIANO
TEACHER FOR THEIR CHILDREN**
This Fall it's going to be just as it is every Fall. In thous-
ands of families, mothers and fathers will sit down together
after the children have been tucked to bed, and say, "It's
about time the youngsters started having some Piano in-
struction. Whom shall we select for their teacher?"
The College of Music, Illinois Woman's College, in its
work of raising the standard of musical education has made
a most careful study of just how parents should make their
choice of piano teachers for their children. We think the re-
sults of our investigation will interest you.
The Kind of a Teacher Parents Should Look For
1. First of all, parents want the reliable teacher, who
teaches according to principles approved by the greatest
instructors and musicians. They do not want a crank or
quack with some "cure-all" method of her own.
2. They want the teacher whose pupils progress rapid-
ly.
3. They want the teacher who interests her pupils, so
that they put forth their very best efforts without having
to be nagged by their parents.
4. They want the teacher whose pupils learn to play in-
telligently, artistically, musically. They do not want
their children to play like the children next door; they
want their children to play better than their neighbor's
children.

A CONVENIENT TRUCK.

Yesterday A. L. Stephens and O. L. Rudlert came up to the city from St. Louis representing Myers Brothers, wholesale druggists. They had a large truck on which was built a small house and in it were arranged nearly everything a druggist would want. Instead of a merchant taking his time, as formerly, and going to a hotel to inspect the samples the truck is brought to his door as it was to Jacob Long's pharmacy yesterday. The outfit was observed by a good many people.

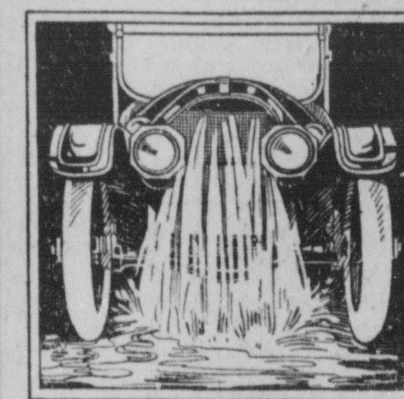

Clyde Sturdy of Lynville was a Wednesday visitor to the city.

CHICAGO, Sept. 6.—Detroit tightened its hold on third place with an 8 to 5 victory over Chicago. Robertson failed in the sixth after the White Sox seemingly had the game safe by a 5-3 margin and was relieved by Davenport who was unable to check a Tiger rampage. WELL KNOWN WOODSON MAN DIED WEDNESDAY

William T. Craig Passed Away After Long Illness—Funeral Services Will be Held Friday Morning.

William T. Craig, one of Woodson's best known citizens, died at his home in that place at 4:20 o'clock Wednesday morning. He had been in failing health for the past two years.

Decedent was the son of George W. and Mary Dobyns Craig and was born in Menard county, August 20, 1869, but most of his life was spent in Woodson and vicinity.

He was united in marriage at Woodson, October 22, 1890, to Miss Leila M. Green, daughter of Mr. and Mrs. Austin Green, who survives, together with the following children: Henry G. Craig, Woodson; Mrs. Lee Davis, Jacksonville; George A. Craig, Woodson. One child, Maude, died in infancy. He also leaves his father and one sister, Mrs. E. W. Wallace of Chicago.

For many years Mr. Craig followed the occupation of farming and was most successful in that calling. Some years ago he gave up active farm work and removed to Woodson where he became president of the Woodson State bank.

When a young man he evinced a great love for music and studied cornet with Prof. C. C. Jeffries. He organized and conducted several bands in Woodson and was director of the present organization up to about a year ago when failing health compelled him to give up the work. It was largely thru his efforts that Woodson has had several fine bands.

Mr. Craig also took a great interest in trap shooting and was regarded as one of the best exponents of trap shooting in the county. He took part in many of the big tournaments held thruout the country in past years.

A man of kindly impulses Mr. Craig was highly esteemed in the community in which his life was spent. He always took great interest in community affairs and always was found among the leaders in all movements that would result in community advancement. Mr. Craig was a member of the Court of Honor.

Funeral services will be held from Unity Presbyterian church Friday morning at 10 o'clock. Burial will be in Asbury cemetery.

MEXICAN LABORER ADJUDGED INSANE

Joe Rodrigo, Mexican and a member of a track gang working on the Chicago and Alton near Clements became suddenly demented Tuesday night at the camp and after becoming possessed of two butcher knives stampeded the entire camp by proceeding to carve everything that came across his vision. Sheriff Weatherford and Deputy Oyer Wright went to the scene and found that Rodrigo had quieted down and had fallen asleep. He was handcuffed and brought to the county jail. Yesterday morning he was given a sanity hearing and adjudged insane and sent to Jacksonville State Hospital.

GENERAL RECESSION IN MARKET PRICES
By Associated Press.
NEW YORK, Sept. 6.—Speculative selling caused by the belief that a reaction was due on technical groups caused a general recession in prices in today's stock market, losses of 1 to nearly 3 points being quickened numbers. There was little outside news that had a direct market bearing although publication of an article in the organ of the Standard Oil Company of New Jersey indicating huge investment losses of American companies operating in Mexico, caused active selling of Mexican oil shares which were forced down large fractions to four points.
Railroad shares failed to respond to the more favorable overnight news showing increased carloadings and a steady increase in the number of new shop workers engaged to replace strikers. Losses of a point or more were registered by Union Pacific, Canadian Pacific, Illinois Central, Missouri Pacific preferred and New York Central. Steels also were reactionary, despite reports of increased production in weekly trade reviews. United States steel common sold off over a point with slightly small losses in Crucible, Republic, Midvale and Bethlehem B. Gulf Steel reacted more than three points.
Total sales were \$76,000 shares.
Call money opened and renewed at 4 1/2 per cent but eased off to 4 in the first hour and held at that figure until the close. Time money and commercial paper rates continued firm. Foreign exchanges were irregular demand.

WHEAT AVERAGED LOWER IN PRICE
By Associated Press.
CHICAGO, Sept. 6.—Wheat averaged a little lower in price today chiefly as a result of hedging sales and because export demand appeared slack.
The finish was unsettled at the same as yesterday's close to 3c down, with December \$1.01 1/2 to \$1.01 3/4 and May \$1.07. Corn closed at 1c net decline to 3c advance, oats unchanged to 1c higher and provisions up five cents to 25c 27c.
Wheat held within a range of about 1c, and fluctuated rapidly on small orders either way.
Hedging sales increased noticeably on all bulges in price. It likewise was apparent that houses with seaboard connections were absorbing the offerings whenever values underwent a material sag, but actual new export dealings were small and were said to be confined in almost entirely to Canadian wheat which was selling at 2 cents under the basis of Chicago No. 2 hard.
Some restraint on wheat buyers evidently was the result of predicted better weather for the domestic corn crop.
Besides mills were showing but little interest in cash wheat at terminals and were said to be getting from rural sources enough wheat to supply all needs. Crop reports continued to tell of damage but buying orders from the country were less in evidence.
Provisions reflected firmness in the value of hogs.

Cook Lydia E. Pinkham's Vegetable Compound. Read the Result.
Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities before I took Lydia E. Pinkham's Vegetable Compound. My back pained all the time and I was unfit for housework. I was worn out if I cooked a meal, and was unable to do my washing. My girl friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if it had not been for your medicine. I recommend your medicine to all women, although I am young to be advising some one older."—Mrs. CURRIE PETTORY, 318 W. Liberty St., Cincinnati, Ohio.

CELEBRATED MINSTRELS ARE COMING FRIDAY

The minstrel fans of this vicinity will be pleased to learn that one of the very best and largest minstrel organizations on the road is to visit this city.

Possibly certain people have forgotten that they are minstrel fans because it has been so long since they have had an opportunity to see a first class minstrel—however, the fever or the minstrel microbe will get them when the Famous Georgia Minstrel, pass over our streets at noon the day they appear here.

The amusement question has by some people always involved the "questionable" amusement question, but that theme is never aroused by the coming of a high class minstrel like the "Georgias" base ball game, a good circus, and an up-to-date minstrel seem to be at least three forms of amusements which are never questioned by the scrupulous.

Laughter, the creating of laughter is the one purpose of the minstrel, as well as the rendering of tune full and pleasing songs.

The minstrel man has been known from almost the beginning of this world's history and was well known by the writers of Biblical affairs. It is this very characteristic of the minstrel which makes it capable of appealing to all classes and when the Famous Georgia Minstrels appear at the Grand Opera house, Friday night, there will be seen hundreds of people in the theatre who are not habitual theater goers.

WHAT I. C. GRADUATES WILL DO THIS YEAR

The senior class at Illinois College last year was the largest in the history of the institution, and it is interesting to note what some of the members of the class plan to do the coming winter. Quite a number of them will enter the teaching profession, while others will pursue their college work still further.

Two of the graduates will study at Harvard University, Felix Farrell and Francis M. Thurmon, the latter to take the medical course. Edward Thies will study medicine at Washington University in St. Louis, and Elmer O. Sellers will study at the University of Chicago. Misses Helenones and Mary Alice Pierce will go to the University of Illinois, as will John R. Wilson, who will continue his electrical engineering course.

Among those who will teach the coming year are the following: John T. Fierke, Richard Hobson and George W. Harney at the local high school; Misses Mabel Ruylo, Miss Helen Stevens, Raymond Huck, Victor Sheppard at Athens, Ill.; Miss Alice Bray and Byron Cully will be at Flora, Ill., while Harold Dolbow will teach at New Berlin.
